

RendererInterface

```
classDiagram
    class RendererInterface
    class BPT
    BPT --|> RendererInterface
```

A UML class diagram showing an inheritance relationship. A box at the top contains the text 'RendererInterface'. A box at the bottom contains the text 'BPT'. A vertical arrow points from the 'BPT' box up to the 'RendererInterface' box, indicating that BPT inherits from RendererInterface.

BPT
